Studying engineering at Polytechnique Montréal is a passion that has been handed down from generation to generation in the family of Viviane Aubin, holder of a bachelor's degree in mechanical engineering (Class of 2018), master's student in power engineering, and the fourth recipient of the *Order of the White Rose*. Her mother, France Caron, Associate Professor in the Faculty of Education at Université de Montréal, completed a master's in applied mathematics in 1986; her grandfather, Rodrigue Caron, graduated with a bachelor's degree in civil engineering (Class of 1957).
